

We are BIM-SA

As a response to forthcoming BIM policies in Australia as well as emerging international standards, BIM-SA was resurrected in 2016 and Chaired by Rebecca De Cicco. The core aim is to support industry in their uptake of BIM and Digital Engineering.

Industry Update

ABAF Australian BIM Academic Forum

Building Smart Australiasia BIM Creds Updates

ABAB Australian BIM Advisory Board

Continued development by varied Government departments

Stalled approaches due to Covid, yet slow resurgence currently occurring.

Our Work State of BIM in South Australia

We conducted 3 surveys.

Report to be completed by middle of this year.

Our Initial findings are hosted on our BIM-SA website presentation from December if you havent seen it please download it here:

http://bim-sa.com.au/wp-content/uploads/2020/12/bim-sa_we-are-bim-sa.pdf

New Survey to be released at our next BIM-SA Event thursday 6th May- please get in touch if you would like to help us!

Global BIM Update

<https://globalbim.org/>

UK BIM Framework - Guidance and Standards

Updates to documentation to support the implementation of ISO 19650.

Asia developing rapidly via use of the CIC BIM Standards updates late 2020 and BIM Manager/Coordinator Certification schemes.

Uptake of Smart City / Digital Twin frameworks across many regions of the world.

Q&A Session*

Women in BIM

A powerful collaborative network

WIB objectives and core drivers.

Encourage and Support.

Supporting one another is crucial as we strive to develop a more inclusive industry. Our network of Members is in place to support, share and encourage each other to grow their skills and take advantage of new opportunities across the world.

Attract and Promote.

We wish to attract women into BIM-related careers by showcasing role models and maintaining a support mechanism across our network. We also aim to help women excel in their careers by continuously boosting their confidence and expanding knowledge.

Advance and Retain.

Research shows that a number of women are leaving careers in construction after only a few years. WIB wish to celebrate women in BIM roles and provide opportunities for further advancement. This will help to increase the representation of women in senior construction roles.
